or Jeannie McCabe (479)221-4032

Want to have a deeper understanding of yourself and insights into others? In working to build a world filled with God's love, it is truly loving ourselves that is sometimes difficult and loving others is even harder.

The Enneagram is a spiritual tool that can be useful for all people, inclusive of all denominations and all religions. It is a tool that at its core helps us discover how we, as humans, separate ourselves from the Love of God and provides tools to help us make other choices. The nine different personalities and layers of the enneagram will be explored in a DVD series by Suzanne Stabile, a leading and national teacher of the Enneagram. The accompanying workbook follows the series for individuals' note taking and follow-up work and processing after the retreat.

Regular monthly gatherings will follow at time to be set by retreat participants.
